EPA Funding (2015-2016):

GAP	\$ 75,000
TOTAL	\$ 75,000

Approximate Location of Tribal Lands

General Assistance Program

The Tejon Tribe is the most recently recognized Tribe in Region 9; their recognition bid was approved in 2011.

Through GAP, the Tribe is working to establish Core Administrative and Financial Management Capacities, conduct initial Environmental Research toward producing a draft Tribal Environmental Inventory, and obtain training. *Contact: Ruben Mojica, 415-972-3268*

Other Tribal Projects

In an effort to reduce the negative impacts of climate change (and particularly drought) in the area, the Tejon Indian Tribe currently has a Renewable Energy Biomass Thermal Conversion project under development. The Kern Council of Government (COG) lead planner has provided support and has been a partner in moving this project forward, including offers to increase joint planning and projects between the Tribe and the COGs.
